

Muhammad Jahanzaib

Front-End Developer | Junior SQA Engineer at Net2Apps

+92-312-3358542 | arainjhanzaib@gmail.com | [LinkedIn](#)

Karachi, Pakistan

Summary

Front-End Web Developer with hands-on experience in HTML, CSS, JavaScript, Bootstrap, and basic React.js, focused on building responsive and user-friendly web interfaces. Have experience as a Junior SQA Engineer at Net2Apps, working on manual testing, test case design, defect tracking, and cross-browser testing. Strong understanding of UI behavior, layout accuracy, and usability from both development and testing perspectives. Experienced in functional, regression, smoke, sanity, and UI testing to ensure high-quality releases. Familiar with MySQL for database testing and basic backend operations. Well-versed in SDLC, STLC, and Agile/Scrum methodologies. Comfortable working with Git and GitHub in collaborative development environments. Actively progressing toward Front-End and MERN Stack development roles with a quality-first mindset.

Experience

Junior SQA Engineer – Net2Apps

- Performed manual testing on the in-house product CodeBot to ensure software quality.
- Designed and executed test cases for various modules.
- Conducted functional, regression, smoke, sanity, and cross-browser testing.
- Identified, documented, and tracked bugs, ensuring timely resolution with development teams.
